

I reside in San Diego where KLOVE is heard of 100.1FM.

KLOVE has provided me with an excellent service in my local area.

It is the station that I listen to most of my radio time when driving. I truly

enjoy KLOVE and has been listening to this radio station for years. It has

proved to be positive, uplifting and encouraging to me. It offers tremendous

support in my religious faith which is the most important thing in my life.

I think very highly of KLOVE and the quality of service they provide. The music

is excellent and the content of the songs is positive and holds high moral

values. The commentaries are interesting and encouraging providing support in my every day life.

Radio personalities are very professional, proper and likable. KLOVE has been a

great "companion" to me as I am an immigrant and don't have too many friends and family in the United States.

The service KLOVE provides offers great benefits to the public and is in the

public interest. It holds high moral personal and family values, supports

responsible citizenship, provides support and help to those in need, offers

information on opportunities to help others. KLOVE has a wide range of audience

and is suitable for small children, teenagers, working professionals, stay at

home mothers, single parents, working parents, retired residents, disabled

persons, immigrants, incarcerated persons and many other groups of people. KLOVE

provides wonderful arrange of music for free which would be very expensive to

own, useful uplifting and encouraging commentaries and important news.

If KLOVE were to be replaced by an alternate LPFM programming the community

would be deprived of all the benefits mentioned above. Many people are greatly

touched by KLOVE and consider it a very important part of their every day life.

Encouragement and enjoyment KLOVE provides and the quality of it is highly

appreciated and valued by it's listeners.
